ACTOR

CONTEXT

SOURCE

■ WHY IS CTI IN THE TI SPACE?

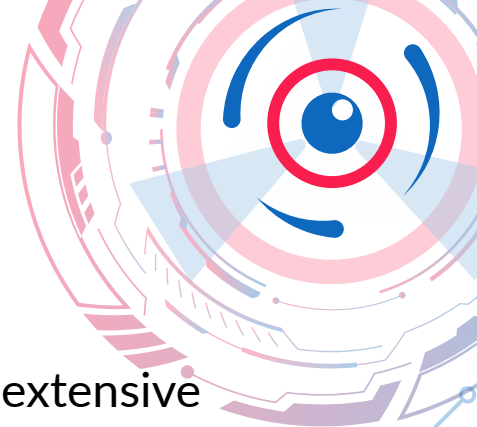

CTI-ME is the only company in the market to bring a proactive approach to understanding and mitigating threat activities with a unique combination of technology solutions and professional services that aim to address dynamic cyber and physical risks.

■ HOW DO WE DO IT?

With a proven track record of assisting organizations in understanding and countering physical and cyber risks, industry expertise in threat intelligence servicing global governments and commercial organizations, and a proactive approach in evaluating the existing security gaps and addressing them, we offer the best cutting-edge portfolio in the threat intelligence space.

■ WHAT DO CUSTOMERS ACCOMPLISH?

CTI-ME is founded on the principle of customizing threat intelligence products and services to meet the security requirements of government bodies and the enterprise. We help clients mitigate risks by protecting their brands, reputations, networks, digital assets, and resources, assessing their vulnerabilities and addressing them with short and long term mitigation plans.

■ WHO WE ARE?

We are Threat Intelligence specialists with an extensive background in servicing global organizations. We analyze existing security structures and fulfill short and long term, client-focused priority intelligence requirements, therefore improving the overall security posture of government and commercial organizations. Our expertise aims to enhance our clients' security and intelligence missions and to create a proactive approach amongst security teams

■ **LEADERSHIP**

Founded and driven by CEO Laith Alkhouri, a recognized leader in the intelligence space, who previously cofounded New York-based risk intelligence company Flashpoint. Laith spent the last 15 years analyzing complex physical and cyber threats, and brings a new vision and approach aimed at establishing early understanding, detection and response to threats, and creating robust security vigilance at the core of intelligence operations. Laith is a known name in the market, having led advanced intelligence solutions and serves as an intelligence advisor to numerous US and global government and commercial entities on matters related to cybercrime, cyber terrorism, and threat intelligence.

LAITH ALKHOURI
